The Aquatic Facility Operator (AFO) certification will provide you with the skills necessary to make your facility more safe and efficient. The certification course is a training program specifically designed to meet the needs of those working in public, semi-public, municipal pools or waterpark facilities.

This two-day course provides in-depth instruction on many facets of aquatic facility operation and management, including:

- filtration
- disinfection
- water testing and treatment
- design considerations
- facility management
- pool safety
- risk management
- facility trouble shooting
- hot tub & spa operation
- and much more!!
