Fun Being Active

August

All Ages

Be Physically Active Your Way

Directions:

- » Begin by listing several activities like walking, swimming, gardening, jumping, skipping, etc. and ask the students what those things are examples of (physical activity). Explain to the students that physical activity is a very important part of staying healthy. The energy we get from food is used when we are active.
- » Most children and adolescents need 60 minutes of physical activity each day. Ask the students to share their favorite ways to be physically active. Then have them list some ways that families can be active together.

ACTIVITY: MyPlate Relay

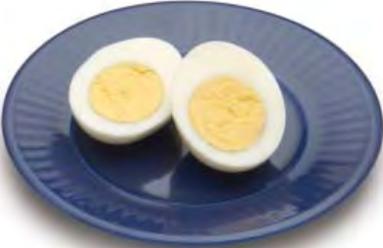

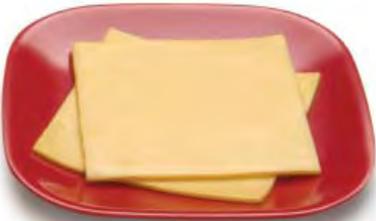

You will need:

- ✓ One set of food and activity cards cut out for each relay line
- ✓ One bowl or basket per relay line
- ✓ One MyPlate printout per line

Directions:

- » Print out the number of food and activity card sets you need. (1 per team)
- » Divide the students into even teams (at least 2) and have them line up behind a starting line. Place one basket at the starting line for each team. The cards should be placed in the starting line basket. The MyPlate printout should be placed at the finish line for each team.
- » Students line up single file behind the basket. The first child draws a card and does the activity listed on it (running, walking, skipping, crab walking, etc.) to get to the finish line. He or she then places the card on the corresponding part of the plate (i.e. grilled chicken on purple protein section). The child runs back to the starting line and tags the next player. The team that finishes first and has their cards on the right parts of the plate wins.

Foods of the Month Fun Being Active

August: Summer Squash and Stone Fruits

PLAY HARD CHARADES GAME (12-15 MINUTES)

This game helps kids think about the many ways to be physically active!

Say to the group of children, *“Now we’re going to play a game. On the back of your card, write the name of something you want to do to play hard every day. This can be something you already know how to do. It can also be something you want to learn, like playing basketball or baseball, doing cool dance moves or even just cleaning your room at home. Don’t share what you wrote with anyone!”*

Demonstrate writing down a favorite activity on the card. Help with spelling and grammar.

“Are you ready to play the game? I’d like a volunteer to come up to the front of the class with me, and – without talking – show us the activity you wrote down. The other students will guess the name of your activity.”

Select a student volunteer and bring them up to the front of the room to silently act out the movement on their card. The other students will try to guess what they are doing until they get it right.

Once the students guess the activity correctly, the class will then act out the activity together for at least 30 seconds.

Repeat with other students as many times as possible. Encourage excitement and participation. Remind them that they are now closer to reaching their goal of doing 1- hour of play every day!

“Those are all fun ways to play hard. We know now that playing hard is one way that will help you grow strong and have lots of energy. Now, who can tell me what you do when you are NOT playing hard at home? How many of you watch TV, play on the computer or play video games? Are they fun? They sure are, but sometimes they will keep us from playing hard at least one hour every day. This means, if we do them too much, we won’t grow up strong. We need to remember that in order to grow strong, we need to watch less television, and play less computer and video games at home. This way, we have more time to play hard. Do you think you can do this? YAY!!”
