## **Parks, Green Infrastructure & Health Workshop**

### **October 16, 2019**

---

#### **Objectives**

- Ideate creative, innovative, priority policy actions to encourage green infrastructure in municipal parks for community benefit;
- Craft tailored messaging platforms for identified audiences;
- Identify additional communications strategies needed to advance policy priorities;
- Identify areas where further understanding of priority policy actions is needed; and
- Develop cross-sector relationships amongst attendees to further this discussion and advocacy work.
