

NRPA POLICY POSITION:

- Support the reauthorization of the LWCF, including full and permanent funding.
- Protect the interests of states and local communities by providing fair and equitable treatment for the State Assistance Program of no less than 40% guaranteed funding for formula grants to the states for active outdoor recreation. This is the same amount required by law to be allocated to the LWCF federal land acquisition program.
- In absence of authorizing legislation, exercise discretionary appropriations authority to allocate at least 40 percent of the total LWCF funding in FY16 to the State Assistance Program, with a dedicated amount being provided to the "Outdoor Recreation Legacy Partnership" competitive grant initiative.

NRPA POLICY POSITION:

- Support the reauthorization of the LWCF, including full and permanent funding.
- Protect the interests of states and local communities by providing fair and equitable treatment for the State Assistance Program of no less than 40% guaranteed funding for formula grants to the states for active outdoor recreation. This is the same amount required by law to be allocated to the LWCF federal land acquisition program.
- In absence of authorizing legislation, exercise discretionary appropriations authority to allocate at least 40 percent of the total LWCF funding in FY16 to the State Assistance Program, with a dedicated amount being provided to the "Outdoor Recreation Legacy Partnership" competitive grant initiative.

NRPA POLICY POSITION:

- Support the reauthorization of the LWCF, including full and permanent funding.
- Protect the interests of states and local communities by providing fair and equitable treatment for the State Assistance Program of no less than 40% guaranteed funding for formula grants to the states for active outdoor recreation. This is the same amount required by law to be allocated to the LWCF federal land acquisition program.
- In absence of authorizing legislation, exercise discretionary appropriations authority to allocate at least 40 percent of the total LWCF funding in FY16 to the State Assistance Program, with a dedicated amount being provided to the "Outdoor Recreation Legacy Partnership" competitive grant initiative.

NRPA POLICY POSITION:

- Support the reauthorization of the LWCF, including full and permanent funding.
- Protect the interests of states and local communities by providing fair and equitable treatment for the State Assistance Program of no less than 40% guaranteed funding for formula grants to the states for active outdoor recreation. This is the same amount required by law to be allocated to the LWCF federal land acquisition program.
- In absence of authorizing legislation, exercise discretionary appropriations authority to allocate at least 40 percent of the total LWCF funding in FY16 to the State Assistance Program, with a dedicated amount being provided to the "Outdoor Recreation Legacy Partnership" competitive grant initiative.

NRPA POLICY POSITION:

- Support the reauthorization of the LWCF, including full and permanent funding.
- Protect the interests of states and local communities by providing fair and equitable treatment for the State Assistance Program of no less than 40% guaranteed funding for formula grants to the states for active outdoor recreation. This is the same amount required by law to be allocated to the LWCF federal land acquisition program.
- In absence of authorizing legislation, exercise discretionary appropriations authority to allocate at least 40 percent of the total LWCF funding in FY16 to the State Assistance Program, with a dedicated amount being provided to the "Outdoor Recreation Legacy Partnership" competitive grant initiative.
